

EuroTec staff, with more than 20 years experience in the concrete batching plant and manufacturing industry, are your trusted business partner in small or big projects alike. Constantly aware of the ever changing market, Eurotec's team of innovative designers have provided a wide range of solutions to ensure an efficient and profitable solution to your business need.

MZ Horizontal Plants

Eurotec's range of conventional horizontal plants come available in typical sizes 90-250m³/hr. Designed with job site environment in mind these plants are engineered and built for easy installation and maintenance. Incorporating either the EuroTec Planetary Pan Mixer or choice of EuroTec Twin Shaft Mixers the MZ Horizontal Plants are readily applicable for Pre-cast facilities, Job sites or Ready mix operations.

MZ Horizontal Plants

| Model | MZ3000T | MZ4500T | MZ6000T | MZ6750Ti | MZ9000Ti |
|--|------------------------|-------------------------|-------------------------|-------------------------|-------------------------|
| Plant Rated Output* | 90m ³ /hour | 120m ³ /hour | 160m ³ /hour | 200m ³ /hour | 250m ³ /hour |
| Type of Mixer | Twin Shaft Mixer | Twin Shaft Mixer | Twin Shaft Mixer | Twin Shaft Mixer | Twin Shaft Mixer |
| Output per batch | 2000 litres | 3000 litres | 4000 litres | 4500 litres | 6000 litres |
| Auxiliary belt width | 900mm | 1000mm | 1000mm | 1200mm | 1200mm |
| Aggregates Batching Sequence | Cumulative | Cumulative | Cumulative | Independent | Independent |
| Weighing Hopper Belt Width | 750mm | 1000mm | 1000mm | 1000mm | 1000mm |
| Water Weigher | 550 litres | 800 litres | 800 litres | 1200 litres | 1700 litres |
| Additive Weigher** | 2 x 12 litres | 2 x 12 litres | 2 x 12 litres | 2 x 16 litres | 2 x 24 litres |
| Connection Power | 135KW | 184KW | 194KW | 235KW | 340KW |
| Generator Set Capacity ** | 250KVA | 350KVA | 350KVA | 500KVA | 600KVA |
| *Output based on Max 3 aggregates weighing | | | | | |
| ** Optional Items. | | | | | |
| NB: Eurotec reserves the right to modify plant specifications without prior notice | | | | | |

Portable Plants

EuroTec's flag ship range of Portable batching plants with actual outputs from 60-120m³/hr of compacted concrete. Fully modularized and portable, these plants offer the complete solution to your medium to high level batching plant needs. Not requiring foundations, these plants can be easily and quickly installed or dismantled., giving your management team full flexibility to batch where you want, when you want.

Unique Features:

- Modular Concept
- Minimal Foundation required.
- 5-days required for site installation
- Economical ,mobilization cost
- Compact in design, suitable for small built up areas
- With computerized control, water/sand compensation
- Built-in operator's control room

| Model | PP60 | PP60T | PT75T | PT90T | PT120T |
|--|------------------------|------------------------|------------------------|------------------------|-------------------------|
| Plant Rated Output* | 60m ³ /hour | 60m ³ /hour | 75m ³ /hour | 90m ³ /hour | 120m ³ /hour |
| Type of Mixer | Planetary Pan Mixer | Twin Shaft Mixer | Twin Shaft Mixer | Twin Shaft Mixer | Twin Shaft Mixer |
| Output per batch | 1cu.m | 1cu.m | 1.5cu.m | 2cu.m | 3cu.m |
| Auxiliary belt width | 750mm | 750mm | 750mm | 900mm | 1000mm |
| Horizontal belt width | 750mm | 750mm | 750mm | 750mm | 1000mm |
| Water Weigher | 300 litres | 300 litres | 420 litres | 550 litres | 800 litres |
| Additive Weigher** | 2 x 12 litres | 2 x 12 litres | 2 x 12 litres | 2 x 12 litres | 2 x 12 litres |
| Connection Power | 75KW | 90KW | 90KW | 130KW | 180KW |
| Generator Set Capacity ** | 150KVA | 150KVA | 150KVA | 250KVA | 350KVA |
| *Output based on Max 3 aggregates weighing | | | | | |
| ** Optional Items. | | | | | |
| NB: Eurotec reserves the right to modify plant specifications without prior notice | | | | | |

Our plants have proven the test of time and are used in harsh environment in countries such as, Pakistan, Bangladesh, Malaysia, Philippines and Vietnam.

Smart Plants

Designed with space constraints in mind, the EuroTec Smart 30 delivers a compact and economical unit whilst still maintaining the highest level of concrete production quality. A fully portable and modularized plant the Smart 30 is fast to mobilize and easy to transport.

Model: SMART-30

| | |
|---------------------------------------|---------------------|
| Plant Rated Output* | 30 cu.m/hour |
| Type of Mixer | Planetary Pan Mixer |
| Output per batch | 500 litres |
| Mixer motor | 18.5KW (IP 55) |
| Hydraulically operated discharge door | YES |
| Emergency manual pump | YES |
| Skip hoist capacity | 900 litres |
| Max filling weight | 1050 kg |
| Skip hoist motor | 7.5 KW (IP 55) |
| Lifting angle | 70 deg |
| Aggregate storage bins | 2 or 3 bins |
| Storage capacity | 24 cu.m/36 cu.m |
| Aggregate weigher capacity | 3 cu.m |
| Cement weigher capacity | 250 litres |
| Water weigher capacity | 150 litres |
| Additive weigher capacity** | 6 litres |
| Connection Power | 40 KW |
| Generator set capacity** | 100 KVA |

*Output based on Max 2 aggregates weighing

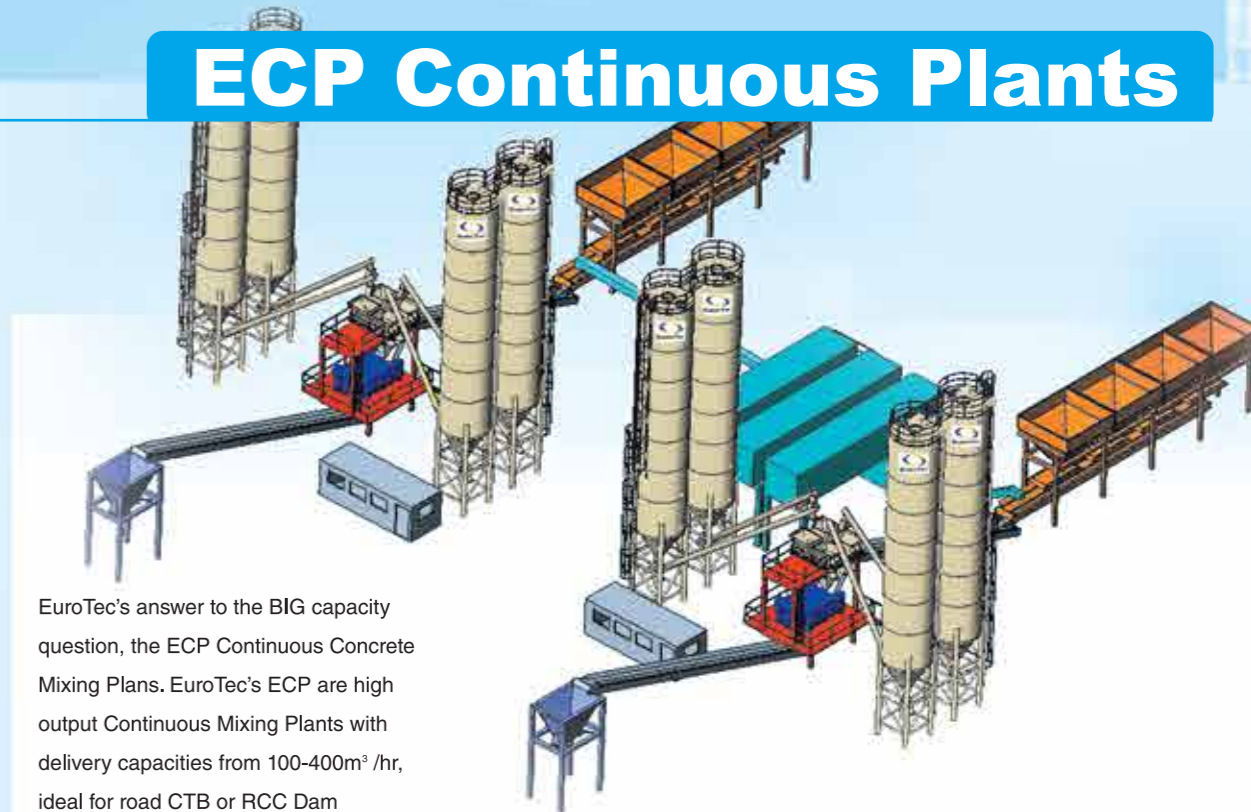

** Optional Items.

NB: Eurotec reserves the right to modify plant specifications without prior notice

Unique Features:

- Modular concept.
- Compact in design, suitable for tight and small built up areas.
- Easy for shipment as the plant can be loaded within standard container gauge.
- A 40 feet trailer will only be required for inland transportation.
- Minimum or no foundations are required for this plant.
- Only (3) days are required to fully install the unit on site.
- Low re-mobilization cost.

ECP Continuous Plants

EuroTec's answer to the BIG capacity question, the ECP Continuous Concrete Mixing Plants. EuroTec's ECP are high output Continuous Mixing Plants with delivery capacities from 100-400m³/hr, ideal for road CTB or RCC Dam Construction where volume is a premium.

ECO Plants

With Twin Shaft Mixer

Introducing the EuroTec ECO range of concrete batch plants currently offered in 30m³/hr-60m³/hr. Plants are available with Eurotec's Planetary Pan Mixer or Eurotec's MB Twin Shaft Mixers. All weighing systems are metered via load cell and managed through Eurotec's own in house ECS control software running on an operator friendly windows environment.

With Planetary Pan Mixer

| Model | ECO-30 | ECO-60T | ECO-75T | ECO-90T | ECO-120T |
|-----------------------------|---------------------|------------------|------------------|------------------|------------------|
| Plant Rated Output* | 30cu.m/hour | 60cu.m/hour | 75cu.m/hour | 90cu.m/hour | 120cu.m/hour |
| Type of Mixer | Planetary Pan Mixer | Twin Shaft Mixer | Twin Shaft Mixer | Twin Shaft Mixer | Twin Shaft Mixer |
| Output per batch | 0.5cu.m | 1cu.m | 1.5cu.m | 2.0cu.m | 3.0cu.m |
| Auxiliary belt width | 750mm | 750mm | 750mm | 900mm | 1000mm |
| Horizontal belt width | 650mm | 650mm | 750mm | 750mm | 1000mm |
| Water Weigher | 170 litres | 280 litres | 420 litres | 550 litres | 800 litres |
| Additive Weigher (Optional) | 2x6 litres | 2x12 litres | 2x12 litres | 2x12 litres | 2x12 litres |
| Connection Power | 50KW | 90KW | 90KW | 126KW | 180KW |
| Generator Set Capacity** | 100KVA | 150KVA | 150KVA | 250KVA | 350KVA |

*Output based on Max 3 aggregates weighing

**Genset capacity based on standard plant with 1 unit screw conveyor

NB: Eurotec reserves the right to modify plant specifications without prior notice

A Concrete Solution for your Business

Power, Efficiency and Grace the EPM mixer sets the standard in modern Pan Mixer technology.

When big is best the EuroTec MC continuous mixers deliver with capacities up to 400m³/hr.

Twin Shafts with a difference the ETS sets the standard for modern Twin Shaft development.

With well over 1000 MB mixers currently in operation worldwide the MB stamps its place as a market leader.
