

## 2. Truck mixer X-500RMX

AUSA is the world leader in compact concrete mixer up to 1 cubic metre. The most ideal equipment for production of concrete in difficult terrain and confined spaces.

Truck mixer X-500RMX- the most ideal equipment for production of concrete in difficult terrain and confined spaces.

The advertisement features three main images of AUSA truck mixers: a small orange model (X 500 RM), a larger orange model with a front loader (X 500 RM x4), and a large grey and orange model (X 1100 RM). Below these are three smaller photos showing the mixers in use on a construction site. The AUSA logo is in the top left, and a list of regional offices with their contact details is at the bottom. A CE mark is visible in the bottom right corner of the advertisement.
